Kids Will Root Against Instruct- Gus Becker Does Some Clever ors at Today's Baseball Game.

Not content with the troubles of the average pedagogue, the principals of the Salt Lake grade schools have framed up a deal that will make their present occupation look like a pathway strewn with roses. The red blood that flows in every man has gotten the better of their judgment, and in a moment of over enthusiasm they imagined they could play the great national game. Probably the excitement of the grade schools baseball games brought out the desire to seek the fountains of eternal youth found in swatting a leather-covered ball with a wellseasoned hickory club In spite of the

when it comes to giving decisions in a baseball game which might be contrary to the opinions of several thousand Salt Lake kids, the fate of one Jones quickly comes to mind. It is asking too much. Principal J. O. Cross, who is one of the prime movers in the proposed game, last evening gave the following line-up of the pedagogues. It reads: Keeler, c.; Cross, p.; Bradford, lst b.; Martin, 2d b.; Barton, 3d b.; Wallace, ss.; Wetzell, I. f.; Folsom, m. f.; McCoy, r. f.; Stearns and Hallock, en the bench. The game is called for 2 p. m.

Spokane Kid Breaks World's Am teur Sprint Record.

Spokane. Wash., May 3.—George Rouse, a Spokane high school boy, yesterday broke the inter-scholastic record for the fifty-yard dash and tied the world's amateur record by making the distance in 52-5 seconds at the big inter-scholastic meet being held at Walla Walla. There are twenty-five schools in the meet and about 250 athletes are competing from the states of Washington, Idaho and Oregon.

seasoned hickory club In spite of the fact that they preach to the kids there is no such a thing, and that Ponce de Leon, who was a wise old head at that, finished in the ruck when he started in that direction, Salt Lake's pedagogues have issued their ultimatum.

It is directed toward the agents of school books who find it profitable to live in Salt Lake, and in a well-worded document, the latter are requested to defend themselves at Walker's field today. As book agents are, as a rule, not afraid of anything from a flat iron in the hands of the angry house wife to a bench winning English Bull, they promptly accepted the declaration of war.

War is the same thing as a mighty hot place, said a great general one time, and the book agents propose to make it such for the school principals. As part of their arsenal of defense, the book agents have secured the entire kid population of the Ogden, May 3-Another large crowd wit-

for the school principals. As part of their arsenal of defense, the book agents have secured the entire kid population of the Salt Lake schools to be on hand and root against the professors. It is a chance in a thousand to get even.

With this prospect in view, the principals have the nerve to ask the sporting editor of The Herald to be the arbiter of this argument. His nobs might be induced to accept an assignment to wage a relentless war on a horde of savages, fight a hand-to-hand duel with a grizzly, but when it comes to giving decisions in a baseball game which might be contrary to the opinions of several thousand Salt Lake kids, the fate of one Jones quickly comes to mind. It is asking too much.

Principal I O Cross who is one of the day that Becker began to shoot in old-time form. A purse of \$25 was hung up for this event of twenty birds, Becker got a perfect score. It was in the following event, however, that he demonstrated his ability to handle the gun. The prize was the Browning diamond medal, won for the first time by A. P. Bigelow, also of Ogden, at the first tournament of the association at Pocatello a year ago. To own the medal it must be won twice in succession by the same man. Becker evidently wanted this medal and he won it by killing twenty-five straight for his

Perhaps the most interesting attraction of the day was the work of Mrs. Nettle Bennett Stewart. Mrs. Stewart is the only woman gunner who is scheduled for the tournament, and her skillful handling tossers, but the book men say they aren't out to be licked, and they propose to show the pedagogues some new stunts in the national game. And the line-up of the book men seems, at first sight, to bear out their claims. For an aggregation of has-beens and glass-arms, the book sellers have rounded up quite a bunch of talent. It looks like this on paper:

FIFTH EAST TEAM WINS.

S. S. S. is recognized everywhere not only as the best of all blood purifiers and the greatest of all tonics, but the one medicine that can be taken with absolute safety by everyone. Young or old, those in robust health, or those whose systems are delicate and run-down, may use it with the same Portland good results, and equally without fear of any unpleasant or injurious after effects. Next in importance to removing the cause of any disease is the condition in which the system is left after a course of medical treatment. Medicines containing mercury, potash or other strong mineral ingredients often do permanent injury by eating out the delicate lining and tissues of the stomach, producing chronic Dyspepsia, unfavorably affecting the bowels, and so deranging the system otherwise, that even if the original disease had been removed from the system it is left in such a weakened and deranged condition that the health is permanently impaired. S. S. S. enjoys the distinction of being the only blood medicine on the market that does not contain a mineral ingredient of some kind. It is made entirely of the healing, cleansing extracts and juices of roots, herbs and barks gathered directly from the forests and fields of nature, under our own supervision, and when they reach our laboratory contain all their original valuable tonic and blood purifying properties. We offer a reward of \$1,000 for proof that S. S. S. contains a particle of mineral in any form. Being made entirely from these vegetable ingredients S. S. S. is absolutely harmless to the system, and while curing disease adds health and strength to every part of the body. S. S. S. cures Rheumatism, Catarrh, Scrofula, Sores and Ulcers, Skin Diseases, Contagious Blood Poison, and all other blood troubles by removing the cause and supplying the circulation with health-giving and strength-producing qualities.

SALT LAKE GETS NEXT TOURNAMENT.

(Special to The Herald.)

Ogden, May 3.—A meeting of the members of the Utah-Idaho Sportsmen's association was held at the Weber club last evening and John F. Cowan of Butte and Salt Lake was elected president. H. C. Keefe of Salt Lake was elected first vice president, George M. Apricoson of Bolse second vice president, and W. W. Mitchell of Salt Lake secretary and treasurer. The directors elected were: A. B. Bean of Pocatello. G. L. Becker of Ogden, B. S. Eastman of Bolse, F. Bybee of Idaho Falis and P. J. Holohan of Twin Falls, Ida.

Salt Lake was chosen as the place for the next tournament and the choice of the intermounatin metropolis went through with a whoop. At the meeting it was decided to have a team shoot added to the list of events in tomorrow's shoot. Gus Becker of Ogden offered a cup as a trophy to shoot for. Each club will be allowed to enter three members to compete.
